MARINE CORPS ORDER 1130.61A

From: Commandant of the Marine Corps
To: Distribution List

Subj: Enlistment of American Citizens Residing Outside the
United States

Ref: (a) MCO P1100.72, MPPM ENLPROC
(b) Manual of the Medical Department, U.S. Navy (NOTAL)
(c) MCO 7301.104
(d) MCO 4650.30J
(e) MCO 1130.53J
(f) MCO 1130.57F
(g) MCO P1080.20H

Encl: (1) List of Responsible Recruiting Stations by Global
Theater
(2) Designated Overseas Testing Facilities

1. Purpose. To provide instructions for the enlistment processing of United States nationals residing abroad by overseas Marine Corps activities.

2. Cancellation. MCO 1130.61.

3. Effective Date. 1 October 1984.

4. Background. Frequently American citizens residing abroad seeking enlistment in the Marine Corps must travel at their own expense to a recruiting station in the United States or Puerto Rico. This results in undue expense to the applicant. Other branches of the Armed Forces have designated selected overseas commands to be responsible for enlisting American nationals. After an applicant has enlisted in the Delayed Entry Program (DEP), further transportation costs to recruit training are absorbed by the U.S. Government.

5. Execution. The processing of overseas enlistments requires tasking overseas commands with the responsibility for: (a) determining an applicant's mental, moral and physical eligibility for enlistment; (b) pre-and post-enlistment processing, and (c) administration of the oath of enlistment.

a. Preenlistment screening will be conducted in accordance with reference (a), to include, where practical, a local police check by the provost marshals office (only).

12 Sep 1984

b. The Armed Services Vocational Aptitude Battery (ASVAB) must be administered to each applicant. Reference (a) or direct liaison with the CMC (MRRE, AUTOVON 224-2523 or 2856) will be used to determine mental eligibility for enlistment when possible, through the High School ASVAB Student Testing Program administered each year in the high schools. In addition, the other services' major overseas commands utilize test control officers (TCO) who administer ASVAB testing programs for American dependents. Commands affected by this Order should make liaison with these TCO's to obtain assistance.

c. Physical examination of applicants will be conducted in accordance with reference (b).

d. Applicants who have accumulated prior service in the Marine Corps or in any other branch of service cannot be enlisted under the terms of this Order.

6. Fiscal and Logistics. Posts and stations should be prepared to billet and feed applicants as required. Transportation to the nearest Marine Corps recruiting station (see enclosure (1)) for final processing and for subsequent shipment to recruit training should also be provided with preference to Military Airlift Command (MAC) flights for overseas travel. Appropriation data to be cited will be in accordance with reference (c). MAC transportation will be arranged in accordance with reference (d).

7. Specific Instructions

a. Command responsibility centers on the actual processing of enlistments, NOT on the recruitment of applicants.

b. Applicants who are eligible for and request information on enlistment bonuses/programs may be enlisted for a guarantee when approval and control numbers have been obtained from the appropriate recruiting station listed in enclosure (1). For eligibility and specific information concerning enlistment bonuses/programs, see references (e) and (f). Processing commands must ensure that an applicant is eligible for a bonus by the applicable fiscal year.

8. Reporting Requirements. Each enlistment must be accurately monitored. Transmission (phone/naval message) of the accession data must be made to the applicable recruiting station (see enclosure (1)) within 2 working days of enlistment in the Marine Corps DEP. Information should be in the following format:

- a. Name of accession
- b. Social security number
- c. Date enlisted into DEP (USMCR)
- d. Date scheduled for assignment to active duty

12 Sep 1984

- e. Number of years enlisted for
- f. Component code
- g. AFQT/GT score
- h. Race (i.e., Caucasian, Black, Other)
- i. Education (i.e., HSG, NHSG, HSSR, GED)
- j. Sex
- k. Source of entry (see reference (g))

9. Responsible Activities

a. Responsibility for the enlistment of American nationals living abroad is limited to the following types of commands:

- (1) Marine Corps bases/air stations
- (2) Marine barracks
- (3) Marine detachments homeported in foreign ports
- (4) Marine security guard companies
- (5) Established recruiting substations overseas

b. Although commands and units not listed above are exempt from the responsibility for processing enlistments, these organizations should, to the maximum extent feasible, support the effort by referring qualified applicants to those commands responsible for applicant processing.

c. In many areas, separate commands are housed at the same base or in proximity. These commands may make liaison to consolidate the processing effort or to pass total responsibility to the command with the largest administrative/career planning staff.

10. Reserve Applicability. This Order is not applicable to the Marine Corps Reserve.

C. E. McDANIEL
By direction
